Cleaning and Hygiene

Working in partnership with our clients to deliver an effective, environmental and ethical range of cleaning products and consumables. These are delivered through complimentary product dispensers and automatic dosing systems for laundry and dishwashers designed to meet exacting standards of reliability and efficiency.

Disposables and Janitorial Products

From a beautifully styled yet simple to use range of product dispensers, through its Cap 'n Tap refill and dilution systems, we deliver a range of cleaning consumables that are both refined and easy to use in the working environment. Certificated COSHH training is provided on-site, free of charge, ensuring all health and safety guidelines are met in practice and to ensure the product is used efficiently and effectively.

Automatic Dosing for Laundry and Dishwasher Machines

Trust Hygiene specialise in the supply and installation of bespoke automatic dosing systems for laundry and dishwashing to compliment its extensive range of highly effective, quality products. Most systems are installed and maintained free on loan.
