

DEFOAMER

Re-Order

Code:
04730

ESSENTIAL PPE

POTENTIAL HAZARD

An additive specially formulated to control detergent foam

Prevents accumulation of foam in wet pick up tanks

A must for carpet extraction machine recovery tanks

Reduces unsightly foam in effluent treatment tanks

DIRECTIONS:

Detergent solution recovery tanks: Add 50-100mls to recovery tank before commencing suction operation.

Pumping systems: Add as required to prevent foam build up in pumps and pipelines.

Effluent: Drip feed into effluent drain to control foam level.

FOR PROFESSIONAL USE ONLY

Contains Benzisothiazolinone May produce an allergic reaction.

Keep out of reach of children.
CONTAINS: Benzisothiazolinone
