

Customer Testimonials

Our Premises and H&S working group have been undertaking a review of washroom and cleaning products and services across the trust. As part of this exercise Trust Hygiene were invited to present a proposal to the group on the Northshore range, which we have since implemented at all 5 academies. We are really pleased that we made this decision. Installation was quick and straight forward, the products tick the sustainability box and have resolved problems that we were previously experiencing with blocked drains, as well as delivering significant cost savings, particularly given the trust discount that was offered.

We also purchase cleaning products from Trust Hygiene and take advantage of the free COSHH training offered to staff as well as the dilution stations. They are also a god send for deliveries at short notice.

Trust Hygiene also undertake the Kitchen canopy deep cleans at our academies. They offer an excellent service at a competitive price.

I have only positive feedback to give on our dealings with Trust Hygiene and have no hesitation in recommending them as a reliable company
